25X1

Between 1000 and 1500 on 10 August, 29 MiG-15s were counted at Aspern airfield. There was 6/10 overcast, northwesterly wind of about 3 km/h, temperature of 18 degrees centigrades, and good visibility. No air activity was observed. Stacks of boards and equipment were seen at almost all buildings at the field. The watch tower at the fuel depot was dismantled.

The lean-to roofs in the southwestern corner of the field were evacuated. The motor vehicles were parked in the open.
